VOLUME 18, ISSUE 2

BRUCE PENINSULA STONE LTD.

NEWSLETTER MAY 2026

WHERE THE SUN MEETS THE SKY

With the arrival of the spring season, all locations are now open and operating at full capacity. Activity remains exceptionally strong across each site, as this is traditionally our busiest time of year for random flagstone and oversized materials. Demand also continues to be high for sawn garden steps, oversized slabs, and natural garden steps. When planning your order, we encourage you to keep in mind that select materials may be available only in limited quantities or maybe temporarily out of stock, and additional lead time may occasionally be required. For orders or estimated timelines, please contact Eric by text, phone, or email.

WHAT'S IN STOCK?

3 - 4" large, pebbled slabs
